HOLI CELEBRATION

IIMT University celebrated Holi on 4th March 2023. The teaching and Non-teaching staff celebrated Holi near the Sai temple.

HOLI CELEBRATION

ALUMNI FUNCTION- 2 days ALUMNI function was organized on 7th and 8th April 2023

DAY 1: EX-EMPLOYEES MEET

A college, corporate, or family reunion is a means of saying "remember the past," it reminds us of how things were once upon a time... We get to share old stories with former coworkers, classmates, or relatives during reunions, recalling all the amusing, stupid, or even serious things we used to do together. Reminiscing is all about recalling stories from our past in order to reignite memories that we wish to cherish now and forever. Simple things like recalling awards you have received, events you have organized, remembering your secret crush that only your closest friends knew about, crazy things you have done together, remembering that someone who saved you from being fired, your football and cricket matches, or even remembering tragic incidents and friends who are no longer with you now. Only to remember their connection On April 7, 2023, an ex-employee meet was organized, and 65 ex-employees attended and appreciated the occasion.

The following activities were included in the event:

- Inaugural address
- Lamp Lightening
- Blessings by Honorable Chancellor Sir
- Group dance
- Solo dance
- Instrumental
- Mr. and Ms. IIMT University

The students of different departments participated in the competition. Total 145 entries were received.

ACTIVITY 5-25TH JANUARY 2023

Azaadi se Gadtantra Tak

Azadi Ka Amrit Mahotsav is a government-sponsored celebration and memorial for India's 75th anniversary of independence as well as the illustrious past of its people, culture, and accomplishments. **Gadtantr** is receiving this mahotsav with the same intent. Under the same conditions, our pupils perform poems presented to them by various liberation fighters in the department.

The entire experience informed and inspired us. ***The winning student, Lucky Pandey, performed the poem "Utho Jawan," earning him the title of winner.***

The Universal Declaration of Human Rights, which was adopted in **1948**, declares in **Article 26** that "Everyone has the right to education." In keeping with this, first-year BBA students gave a fantastic presentation on the subject of education for everyone. **Shweta Vashistha, one of the pupils, managed to draw attention to the event. She portrayed a placard stating that "Education should be the right of trans gender as well"** She emphasised the inadequate educational institutions in her address and centred on advocating for universal education regardless of gender and other barriers.

Mrs. Tammanna Rajpoot and Ms. Ratandeep Kaur successfully organised the event.

ACTIVITY 6-23rd & 24th Feb 2023

Under the Tech Fest 2k23 programme, SCM had successfully organised a Management Game and Project Fair. Students willingly engaged in the activities of the Business Plan, Case Study, Declamation, AD MAD Show, Debate, and Business Quiz under the wonderful direction of our esteemed **Dean Sir Dr. Satish K. Singh, Dr. Vineet Kaushik HOD MBA, Mr. Wasik Iqbal HOD BBA, and Mr. Puneet Kumar HOD Commerce.** We had 180 participants in total, of which 40+ entries were from other reputable colleges like **Deewan, Meerut College, MIET,** etc. These activities were open to everyone, and a link was made for participation. Every activity has two winning teams that receive trophies and participation certificates.

ACTIVITY REPORT ON ORGAN DONATION DAY

The aim of World Organ Donation Day is to sensitize people about organ donation so that they pledge to donate organs after death. World Organ Donation Day is observed every year on August 13 across the globe.

INTRODUCTION:

Organ donation is the process of retrieving an organ like a kidney, liver, heart, lungs, or pancreas from a deceased or living donor. The retrieved organ is then transplanted into a recipient suffering from organ failure. The technological advancements in this field have drastically improved patient survival rates and graft quality after transplantation. However, the increased organ demand has led to an inadequate supply. To improve this situation, people should become aware of organ donation and be willing to do so after their death because a single organ donor can save up to eight lives!

Awareness campaign on “organ donation day” planned to be organized by the department of nursing, IIMT University on 27 November inside the IIMT University campus by the students of nursing on the occasion of world organ donation day.

GOALS:

1. To spread awareness among people and recognize the selfless efforts made towards mankind re-establish belief in humanity.
2. To sensitize people about organ donation so that they pledge to donate organs after death.

FRESHER'S PARTY

Date:18/03/2023

Welcome to the fresh Start!

Every student anticipates the "Fresher's Party," the most remarkable event of the college, with bated breath from the moment they are admitted. Every new student in the academic year 2022–2023 batch at the IIMT UNIVERSITY MEERUT campus will always remember March 18, 2023, as a special day. The day of the new students was one of anticipation, joy, music, fervour, laughter, and happiness. It's the day when juniors and seniors come together to finally commemorate their shared membership in the college.

As the sunshine not only dispels the darkness of night, but also brings benefits and happiness into our lives, light is thought to be exceedingly sacred and a sign of prosperity.

Our dignitaries lit the lamp to begin the event's opening, receiving the goddess Saraswati's blessings.

Dr. Aniruddha Ram (Dean Law))

Dr. Ahteshamuddin Ansari (Hod Law)

Welcome to the Fresh Start

The Renaissance 2k22-23 Mr. & Ms. Fresher's of Rubaru 2k22-23 main event was divided into three categories based on singing, dancing, acting, and stand-up comedy. Students at the College of Law IIMT University never miss an opportunity to receive the blessings of the Sarasvati Vandana prayer, since it is said that goddess Saraswati clears the darkness from the life and paves the way for us to move in the light and when it comes to students of College of Law IIMT University, they never miss a single chance to take blessings of Sarasvati Vandana prayer. Sarasvati Vandana was performed by singer MS Saloni and a couple dance followers performed on it.

Participants Saloni, Vidhi, Nitanshu, and Shivam, performed songs in a variety of styles, including solo and group singing, remix and rap songs, old and new group songs, and more.

The act of enjoying a well-crafted joke uniquely combines enjoyment with instruction. Stand-up comedy, which is not categorised as educational or instructive, has the capacity to communicate legal awareness themes that frequently cannot be expressed in other ways. Additionally, as demonstrated by a number of pupils, it has the capacity to reach people who are frequently excluded from traditional forms of learning since it is interesting.

The event continued into its major, joyful stage, where it displayed many kinds of fashion and attire centred on the topic Mr. and Mrs. Fresher's 2022–23. Three rounds, including one for elimination, were given to the participants. The fashion presentation heavily emphasised self-assurance, compatibility with relationships, and carrying oneself, and was followed by a Q&A session.

Event organisers Mr. Mohd. Juned Ansari and Mrs. Shaista Kahkeshan honoured Dr. Aniruddha Ram, who is the dean and Dr. Ahteshamuddin Ansari, HOD of the IIMT Meerut College of Law, with a souvenir.

TEACHER'S DAY

Date:05/09/2022

On September 5, 2018, the law students of College of Law, IIMT University Meerut' celebrated Teachers' Day to thank their teachers/instructors for helping to prepare them for the future. Students honoured all the professors as part of the celebration, delighted them with a cultural programme, and organised games for them.

The event began with a welcome to the instructors, a ribbon-cutting ceremony, and a ceremony to light the lamps. Many students participated in the activity. The Dr. Aniruddha Ram (Dean) College of Law, addressed the students and the instructors. He emphasised that since it permanently changes the lives of thousands of people and their families, there is no substitute for high-quality education.

Students enthralled the teachers with outstanding performances. On the subject of “how could a healthy relationship be developed between the teachers and students with the digital helping hands,” students also led a panel discussion. The panel discussion included five B.A.LL.B. students. Dr. Amitesh Anand (Associate Professor) moderated the panel discussion.

Speaking on the function of a teacher as a mentor, Ms. Sarika Ujjwal. She expressed her views on how teachers are acting in the capacity of mentors, as well as on other aspects of mentorship. She also made a special remark that excellent mentors connect and that great mentors constantly listen and intervene.

Ms. Shaista Kahkeshan shared her thoughts on teachers as career planners for the twenty-first century. Here, she discussed the four Cs of 21st-century education: cooperation, communication, creativity, and critical thinking. She also noted the need for teachers to be digital educators who can act as moderators, let student's study on their own, and provide guidance as needed.

Dr. Ahteshamuddin Ansari then discussed "teacher as a digital instructor for different ways of learning" in his subsequent speech. He outlined the significance of educational technologies as well as their various varieties.

He also discussed the functions of educators as online instructors.

Dr. Amitesh Anand concluded by discussing the role of teachers as learning facilitators. She explained how teachers may support students self-learning and how they can encourage and support students development in law classrooms, legal courts, and other legal settings.

The panel discussion and celebration for teachers day at the College of Law, IIMT University, Meerut were attended by all the faculty and B.A.LL.B. students.

Organizers of the event were: -

Convenor- Dr. Aniruddha Ram (Dean)

Children's day

Every year, Children's Day is celebrated all across India on November 14. This day was chosen to celebrate as Children's Day after the death of India's first prime Minister Jawaharlal Nehru, adorably referred to as Chacha Nehru. Jawaharlal Nehru celebrated his birthday on November 14. Nehru was a

great advocate for children's rights and for an all-inclusive education system where knowledge is accessible to all. He believed that children are the future of the country and the foundation of society.

NATIONAL CONSTITUTION DAY

India celebrates Constitution Day, or National Law Day, every year on November 26 as it marks the day the Indian Constitution was adopted by the Constituent Assembly in 1949.

It was in 2015 when the Government of India decided to establish November 26 as Constitution Day to advance "constitutional values among residents". The day was declared in the year which marked the 125th birth anniversary of Dr Bhimrao Ambedkar, the chairman of the Drafting Committee of the Constitution.

Constitution Day is also known as *Samvidhan Divas*. After India became an independent country, the Constituent Assembly entrusted the job of drafting the Constitution to a committee chaired by Dr BR Ambedkar. Dr Rajendra Prasad, the first President of India, was the President of the Constituent Assembly, which was established in 1946.

Communication is a fundamental need for human beings to sustain in the world. Having good communication skills plays a major role in developing the overall personality or to make a person successful. The debate is a discussion on a subject on which several people share their different opinions, it can be favourable towards the topic or it can be non-

favourable. In today's competitive world it is very essential to teach your child about the outside world. There are numerous ways to make them aware of the outer world. Nowadays, children are largely engaged in technology and not getting involved in actual intercommunication. So, this arises the need to motivate your children to get involved and participate in debates. These competitions help them to develop self-expression. Debate Competition for students is very influential as it helps them to boost their confidence, remove the fear of [speaking in public](#), develop critical thinking, how to think and communicate under pressure. Students as a part of debate experience considerable advantages, whether they are part of school debate teams or if they debate as a member of a social or political club. The main aspiration of being a part of the debate is to convey yourself in a concise way so that people around you understand your point of view and your thought process, but it should be done with using the logic that is convincing and effective.

Since 1971, the University Posta Union (UPU) has encouraged young writers aged 9-15 to write letters on a given theme to win exciting prizes. The competition is an excellent way of making young people aware of the important role postal services play in our societies. It develops their skills in composition and their ability to express thoughts clearly. It also fosters enjoyment of letter writing and helps strengthen the bonds of international friendship.

The UPU's secretariat, the International Bureau, chooses a theme annually and publicizes it each year. Participating countries then organize the competition at the national level through the Post, often with the support of the educational authorities and media.

ICAR-Central Potato Research Institute Regional Station, Modipuram Campus is the biggest Research Station of the Central Potato Research Institute, Shimla. It has three units, i.e. Modipuram, Machhri and Pabli. At Modipuram main complex, potato research in various disciplines through 15 interdisciplinary programmes is carried out for Central-Indo Gangetic plains. The Machhri and Pabli units are used exclusively for seed production. Besides research and seed production programme of potato, this Campus also serves as one of the centres of All India Co-ordinated Research Project on Potato. Wheat seed production is also carried out in the rotational areas for National Seeds Corporation Ltd. Research work is being carried out by 16 scientists in six disciplines. They are supported by 39 technical and 25 supporting staff. Besides, there are 11 administrative personnel headed by two Assistant Administrative Officers. A four storied building at Modipuram houses laboratories, library, museum and a small meeting hall. The laboratories are well equipped. The administrative block comprises of two single storey buildings which accommodate the office of the Joint Director and the administrative wing.

The history of the station has links with the establishment of Potato Experimental and Trial centre at Babugarh, Meerut, Uttar Pradesh in 1957 and seed production farm at Macchri near Daurala (Meerut) in 1971. Subsequently, a potato research cum seed production unit was established at Modipuram (Meerut) in 1977 simultaneously Babugarh station was closed. In 1978, both Modipuram and Daurala units were amalgamated and the station was renamed as Central

Potato Research Station, Modipuram in 1979. In 1999, the station was upgraded and renowned as Central Potato Research Institute Campus, Modipuram. It is situated at 8 KM from Begum Bridge, Meerut City, on Western side of Meerut-Roorkee Road (NH-58). The Latitude and Longitude of the campus are 29.1o N and 77.92o E respectively. It altitude is 300 meter above Mean Sea Level (amsl). It has 151.74 ha farm for seed production and research activities, while 15.41 ha is constructed building area. Out of this, 22 ha are used for conducting field experiments and the remaining area is utilized for seed production of potato and wheat crops. The Campus is having 16-room Guest House-cum-Hostel with a dining hall and a meeting room for meeting the requirements of visiting officials and trainees. A seven room building at Machhri is serving as field lab-cum-stores for the seed production unit.

The ICAR-Central Institute for Research on Cattle (ICAR-CIRC), in Meerut Cantt., is an institute operating under Indian Council of Agricultural Research (ICAR), Department of Agricultural Research & Education (DARE), Ministry of Agriculture and Farmers Welfare, Government of India. The Central Institute for Research on Cattle (CIRC) formerly known as Project Directorate on Cattle (PDC) was established on 3rd November 1987 at Military Farms School and Research Centre, Meerut by upgrading the status of All- India Coordinated Research Project (AICRP) on Cattle. Being a premiere Institute solely working on the genetic improvement of cattle, it plays significant and pivotal role in improving the cattle production. The ICAR- CIRC conducts interdisciplinary research in the field of cattle breeding, feeding, management and reproduction to enhance productivity and profitability. The Institute plans, coordinates and monitors the research projects on cattle and serves as national data repository and provide consultancy for cattle production and reproduction. The institute plays a significant role by providing superior male germplasm to stakeholders. The Institute helps to produce high producing cattle through the supply of superior progeny tested male germplasm. The production performance of daughters born out of the semen doses supplied by the Institute is comparatively better than the female cattle in other similar programmes. The Institute provides training to the AI workers and farmers involved in cattle rearing and thereby motivate the rural youths and to generate self-employment. The institute also coordinates three important genetic improvement projects through AICRP on cattle to increase the performance of cattle maintained under both farm and field conditions along with suitable technologies for sustenance of production and reproduction. The institute also acts as a key player in the socio-economic upliftment of cattle owners by infusing superior germplasm in the farmer's herd with suitable feeding and management technologies for enhancing the milk production and optimising reproduction.

Event Name- Celebrating kishan divas/ International Millets day
School of Agriculture Sciences, IIMT University Meerut Date:
23 Dec 2022

Every year, India observes Farmers’ Day or KisanDiwas on December 23. Farmers are the driving force of the country’s economy and deserve to be honored. The day also celebrates the birth of the fifth Prime Minister of India, ChaudharyCharan Singh, who started as a farmer before earning his seat in the government. This day aims to promote awareness of the importance of farmers and their valuable contribution to the overall social- and economic development of the nation. ChaudharyCharan Singh is a remarkable testimony to the fact that, despite having humble beginnings and living a plain lifestyle, one can go on to do great things. KisanDiwas is celebrated on December 23 to honor the anniversary of this great man’s birth. India is primarily an agriculture-based country; the national economy and citizens of India heavily depend on farmers to sustain the country’s development. It so happens that one of the great leaders in Indian history, ChaudharyCharan Singh, was himself from a small farmer’s family in Uttar Pradesh. Singh went on to become India’s fifth Prime Minister, setting a precedent for the reverence of farmers. SushriShobhaKarandlaje said the IYM2023 will lead India towards Food and Nutritional Security. Millets are considered ‘Smart Food’ as they are easy to cultivate, mostly organic and contains high nutritional value, she said. With PM Modi’s vision of “VasudaivaKutumbakam” (The World is One Family), the IYM2023 celebration is an opportunity for India to promote Nutri-cereal Millets globally and place them in the world’s ‘food map’, she added.

Speaking on the occasion, Director General, FAO Mr. QU Dongyu said the IYM2023 will provide us with a unique opportunity to give visibility to crops that have great potential to strengthen global nutrition, food security, decent jobs & economies, while accelerating Climate Action. Millets are basically Asian crops, climate resilient, lead to sustainable development and help ensure Food Security & Nutrition for all, he said.... Event Name: Honey bee training
School of Agriculture Sciences, IIMT University Meerut Date:
23 Dec 2022

A **honey bee** (also spelled **honeybee**) is a eusocial flying insect within the genus *Apis* of the beeclade, all native to mainland Afro-Eurasia. After bees spread naturally throughout Africa and Eurasia, humans became responsible for the current cosmopolitan distribution of honey bees, introducing multiple subspecies into South America (early 16th century), North America (early 17th century), and Australia (early 19th century). Honey bees are known for their construction of perennial colonial nests from wax, the large size of their colonies, and surplus production and storage of honey, distinguishing their hives as a prized foraging target of many animals, including honey badgers, bears and human hunter-gatherers. Only eight surviving species of honey bee are recognized, with a total of 43 subspecies, though historically 7 to 11 species are recognized. Honey bees represent only a small fraction of the roughly 20,000 known species of bees. The best known honey bee is the western honey bee, (*Apis mellifera*), which was domesticated for honey production and crop pollination. The only other domesticated bee is the eastern honey bee (*Apis cerana*), which occurs in South, Southeast, and East Asia. Only members of the genus *Apis* are true honey bees, but some other types of bees produce and store honey, and have been kept by humans for that purpose, including the stingless bees belonging to the genus *Melipona* and the Indian stingless or dammar bee *Tetragonula iridipennis*. Modern humans also use beeswax in making candles, soap, lip balms and various cosmetics, as a lubricant and in mould-making using the lost wax process.

6. National Science Day 2023:

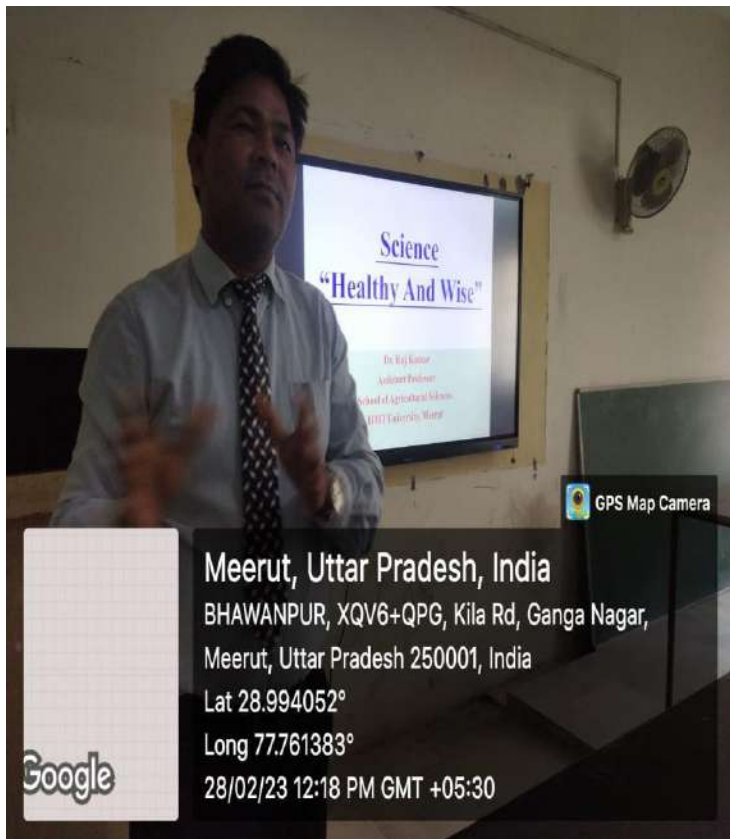

On February 28 each year, National Science Day honors Chandrasekhar Venkata Raman as C.V. Raman, an Indian scientist and physician, for discovering the “Raman Effect.” Every year, it is celebrated to honour the value of science and to serve as a reminder of the influence it has had on humankind’s way of life. In honour of India’s G20 leadership, the event this year has the theme “Global Science for Global Wellness.” Notably: In 1986, the Government of India, under then Prime Minister Rajiv Gandhi, designated February 28 as National Science Day to commemorate the announcement of the discovery of the “Raman Effect”....
