IIMT University, O- Pocket, Ganga Nagar, Mawana Road, Meerut  
Contact Details : 8127488275, 8899569988, 7037195225

## ABOUT THE SEMINAR

These three words of Rigveda communicate: 'Let us strive for wisdom that leads to the welfare of all, which characterizes the spirit of the Indian knowledge system. After independence, the education system of India remained under the impact of British's education system and our Indian cultural heritage remained dormant. Though the various efforts were made by education commissions and policy on Education but the Indianization of our Education still remained to be thought off. Our Hon'ble Prime Minister Shri. Narendra Modi Ji showed a grave concern for the perceptible deterioration in the quality of education and therefore brought a National Education policy 2020 after 34 years to be the first education policy of 21st century.

This policy envisions an Education system that is deeply rooted in Indian ethos and cultural heritage, thereby, building a context to transform India that is Bharat into a knowledge superpower with a rich heritage of ancient and eternal knowledge, thought, wisdom, and truth. The Indian Education system has the power to enlighten the whole world. Realizing the need for a revival of our ancient knowledge system, Ministry of Education established an innovative cell as Indian knowledge system in Oct 2020 with an aim to, preserve, promote and disseminate India's rich indigenous knowledge across various disciplines.

The National seminar on "Dimensions of Indian Knowledge System and NEP 2020" is organized by the College of Education, IIMT University Meerut, will extend a potential platform for prospective thinkers and creative academicians to deliberate and discuss the various aspects of the Indian knowledge System: an amazingly large body of intellectual text, the largest collection of manuscripts, attested traditions of text, and thinkers in many domains of knowledge that finds its expression in NEP 2020. The magnitude of the Indian Knowledge system is vast and requires a loud discussion for its inclusion in present-day curriculum and research domain to lead the country on the path of a Vishva Guru. It is conceived that the conclusive discussions shell definitely enrich the understanding around the various themes of the seminar and ignite the curious minds to think projectively and divergently on the issues of Education.

## SUB-THEMES

- Conceptual framework and vision of Indian knowledge system.
- Vedic knowledge traditions (Veda, Upanishad), Indian knowledge system and NEP 2020
